Round 3	1st Half	Malibu	Dan	Pat	Ben	Scott	Derrick	Mike B	Julie	
	2nd Half	Malibu	Skip	Bill P	Skylar	Donna	Rui	John W	Brooke	

If you do not see your name in the above matrix and would like to help or learn officiating, just ask!

- Boat wait timer will be set to 60 seconds. Skier may ask to go sooner if desired. For those less familiar with this, the timer starts at the exit gates. In the drop zone, you will hear two beeps (get ready), and then 10 seconds later, 4 beeps (time to ski).
- Ski to the drop buoy in the drop zone, not past. Pull out on the right at the far end, on the left at the dock end.
- Boat drivers attempt to start next skier as wait timer beeps. This means efficient rope changing.
- Skiers be ready when the boat arrives for you.
- Pick-up pattern will be clockwise. Skiers on left side of dock, rope swap on right.
- Dock starter please help manage the people on the dock to keep tournament rolling.
- Ropes will be alternated. Dock starter changes handle, pulls rope through to starting line length, throws shock tube to boat.
If 15-off, just make sure there's enough rope through not to lose it. Suggest only wrapping 15-off.
Boat rope handler pulls in rope and throws whole mess to dock. Or simply pass shock tube.
